

Shhhh!

MINIMUM SOUND LEVEL MEETS MAXIMUM SUCTION PERFORMANCE

At only 46dB¹, the Nilfisk GD 2000 is quietly making its mark on savvy cleaners. A unique combination of the market's lowest sound level, powerful suction and superior filtration makes the GD 2000 the ideal choice for cleaning virtually anywhere, anytime. Extremely easy to use, it is both ergonomic and highly manoeuvrable. A variety of features boosts productivity. And the machine is designed in such a way that potential service tasks can be performed quickly and easily by the operator. Come see (and hear) for yourself!

¹According to BS 5415

SEEING IS BELIEVING. HEARING IS, TOO

The Nilfisk GD 2000 is available in a number of different models, with variations in machine appearance, filters, cord fixture, accessories and other options. It is the only vac on the market that offers the option of both a pre-fan and post-fan HEPA filter as well as sack, multi-layer paper, foam, motor protection and foam exhaust filters. Increase productivity with features like a 1.9 m hose and 15 m cord (detachable cord or easily replaceable fixed cord). Even though the GD 2000 has the market's lowest sound level, it still provides maximum suction power – up to 300 W at the nozzle. Want to hear more?

Market's best filtration

Only the GD 2000 offers both a pre-fan and post-fan HEPA filter.

Replacing the motor is so easy that anyone can do it, anytime. Simply click out the old motor cassette, click in a new one and continue working. Virtually no downtime!

TECHNICAL SPECIFICATIONS

Description	Unit	GD 2000	GDP 2000	HDS 2000
Rated power	W	1200	1200	1200
